I Brian David Hill state that the above information is a reconstructed copy of a Multimedia text message sent to a ZTE Valet cell phone(276-224-0862) that I was using at the time in regards to aiding in my criminal case Appeal and in helping to prove my innocence of my criminal charge. All header information was typed up from what I can read from my cell phone. I even checked it over to ensure that all was copied. Attachment of the SBI Document that was leaked by the Whistleblower is attached to this document. This was attached to the original email that was sent to the cell phone as a MMS message.

I reconstructed the MMS message to the best of my abilities even though I suffer under serious health concerns, so there may be human errors in the reconstruction. However a video will also be created that will show the MMS message I received and also show the header information(Message details) plus the attachment as long as the attachment is legal. The attachment shows a leaked SBI document but appears to be low quality and difficult to read.

I certify under penalty of perjury that the foregoing is true and correct.
